# VISHNUVARDHAN CHOWHAN
Data Analytics & Automation Specialist | Hyderabad, India

August 31, 2025
Hiring Manager
Trimble

Dear Yamunna ma'am,

I'm enthusiastic about applying for the **data engineer** role at **Trimble**, where I see a strong alignment between my skills and the firm's data-driven culture.

I specialize in Python, SQL, PySpark, Big Data, ETL pipelines, workflow automation, and I've used these skills to deliver measurable impact.

Why Trimble? I'm excited to join Trimble to contribute to its innovative, data-driven engineering solutions and help turn complex data into actionable insights.

What I bring:
• **Designed and deployed Python-based ETL pipelines to clean, transform, and standardize millions of rows of data, demonstrating my ability to manage and scale large datasets efficiently.**
• **Automated end-to-end reporting workflows, reducing manual effort by 80% and highlighting my strength in streamlining repetitive processes through automation.**
• **Built robust SQL and Python scripts for data cleaning, validation, and transformation, showcasing my focus on improving pipeline reliability and ensuring data accuracy.**

I'd be glad to discuss how my background in building reliable data workflows can strengthen Trimble's data infrastructure and support downstream analytics.

**Best regards,**
**Vishnuvardhan Chowhan**
