KBHG Red light area

Dear Bunny Rogerz96,

I'm enthusiastic about applying for the **dengue ra puka** role at **KBHG Red light area**, where I see a strong alignment between my skills and the firm's data-driven culture.

I specialize in Python, SQL, Power BI + Streamlit dashboarding, reporting automation, and I've used these skills to deliver measurable impact.

Why KBHG Red light area? fucking is passion its fire!

What I bring:

- **I bring experience designing Streamlit-based KPI and Consumer Journey Dashboards, demonstrating my ability to translate complex data into actionable insights for business teams.**

- **I have automated SQL + Python reporting pipelines, showing my strength in reducing manual effort and improving data accuracy—skills I can apply to optimize any data process I take on.**

- **I developed an Innovations Tracker Dashboard to identify and benchmark product launches, highlighting my capability to build analytics tools that uncover market opportunities.**

I'd love the opportunity to discuss how I can contribute to KBHG Red light area's analytics team and help drive data-driven decision making.

Best regards,
Vishnuvardhan Chowhan
